Subject: Fw: Signed Letter

As usual, Allison rocks.

Christine - You may have rec'd this email already but I wasn't sure that Jenny and Dave Croxton were in the office. Don't forget to include the enclosure when the letter is sent to folks. In addition to NOAA, addressees and NWEA, Don Wayne of EPA HQ should get a copy of the countersigned letter too.

Per our outreach plan, I left Peter Daugherty, the Director of ODF's Forest Practices Division, a voice message that EPA would be sending out our initial assessment letter this week and briefly describe the general points the letter would make. I also talked with Nina (NWEA) and described the letter to her. She was glad that we were identifying the need for development of BMPs.

Nina also asked if I had read her recent AG letter and watched the video...she recounted a pretty funny story from Neil Mullane about the slough in the video. Neal had been doing WQ sampling in the lower end of the slough years ago and the person that he was with found, and against Neil's strong cautions, ate oysters from the slough. The person got very sick. So did Neil. He had eaten some peanuts in the field and must have had bacteria on his hands from sampling.

Have a great holiday and be careful with the oyster stuffing. Dave

(See attached file: December ODEQ Letter_NOAA signed.pdf)

Hi Jenny--

Ta da!!!! Here's the final letter signed by NOAA. I'll send the original by snail mail. Thanks for everyone's help getting this finalized.

Have a great holiday. I'll be in tomorrow if you need anything.

Allison

Yes- no more edits! Our office director actually had a couple of optional suggestions, but it's time to call it quits. Looking forward to getting the pdf copy later today.

Thanks. I'm fine with the edits and will give John a new version to sign this morning. The "coastal nonpoint management area" terminology is fine.

Ok. Pens down! Let's hope there are no more edits (or at least nothing that will change the pagination on the 3rd page for the signature block).

I'll send as soon as signed.

I'm fine with the changes...Allison may have insights on the most appropriate wording for describing the overall coastal area where IR TMDLs will be completed (CMZ, CMZA, area covered by the CNPCP???)

Given the logistics of signing I'd recommend refraining from much more in the way of editing.

Subject: Another change to the letter

Allison and Dave P - Christine Psyk came by and had been confused by the inserted paragraph that we added re: IR-TMDL schedules for other coastal subbasins. She had been confused since the letter had focused on the Mid-Coast TMDLs and then switched to IR-TMDLs required for other subbasins. I added the following language and also got rid of "regarding" in the paragraph above which she found too wordy (though optional for keeping or removing).

So here's the latest letter. Dan O is talking with our RA, Dennis McLerran, this pm at 3:45, and we have been making phone calls to ODEQ today. I hope we'll be able to have the letter signed tonight. And I can safely say that I feel for Jayne and Allison as you both were putting the letter together.
